

MEET THE TWO NEW PILOT MODELS. REDESIGNED FOR EXCELLENCE!

The same machine *Different Carriages*

PILOT NP

COUSINS
PACKAGING INC

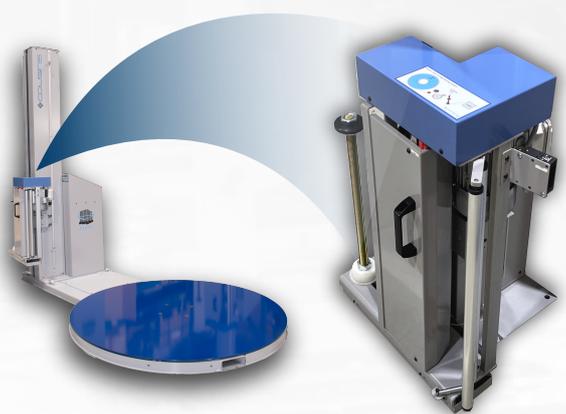

Enjoy labor cost savings compared to handwrapping along with being able to consistently control the amount and location of the film being applied with the unique operator control panel.

Handwrapping labor savings will quickly cover the budget friendly machine cost.

PILOT X

COUSINS
PACKAGING INC

Provides all the same benefits of the NP model. The addition of the **200% powered pre-stretch film carriage leads to significant film savings,** can wrap lighter loads and provides additional load containment.

They Both Include *Super Intelligent Controls*

A - B - C wrap program selector with capability to input and store unique wrapping parameters for each program. Each program can have its own individual settings.
