

Meet the Next Level of *Control Systems*

SMART TOUCH TECHNOLOGY

STANDARD on Switch and 3200 models

-  7" color touch screen controls provide film auditing, icon driven and easy to navigate.
-  Film Usage & Cost Monitoring - stores film usage and cost per load for up to 30 loads.
-  Diagnostics - provides visual operating status of switches and sensors to simplify troubleshooting.
-  Maintenance Notification - alerts maintenance for recommended service based on cycle counter
-  Multi-Zone Force to Load - can apply different force to load settings in five (5) separate zones

OPTIONAL for the 2100-SRT MODELS ONLY

MANUAL CONTROLS

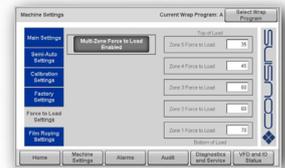

DIAGNOSTICS I/O

WRAP PROGRAMMING

MULTIZONE FORCE TO LOAD

 **An affordable upgrade option for the 2100-SRT control panel.** Enjoy the same features and benefits of the SMART TOUCH TECHNOLOGY control panel —**with the exception of the film auditing feature**— at a lower cost.

 This budget-friendly upgrade, combined with the 2100-SRT's proven durability and reliability, delivers a powerful and dependable solution.
